Mount Vernon Hash House Harriers

March 25, 2005 – Alexandria, VA

If you don't come to the hash, danged if it doesn't come find you. 7 Minutes and I hid, but when we emerged later Saturday afternoon, we found the remants of what might have been a hash near our apartments, the short building behind the Skyline complex in Baileys Crossroads. Our expert hash forensics analysis concluded that it was a sh&tty trail. We found a naked, virgin check in front of our building, and no sign of pack arrow or flour within 75 yards of it. We did find flour at Target – in the parking lot and in the housewares section. And I saw a pack arrow directing hounds to cross six-lane Seminary RD at an obtuse angle… instead of using the crosswalk 5 feet away. Obviously, it was another Wankers' trail. We never learn, do we?!! I'm sorry I missed it!

Last week the hash democratically chose its new leadership among those stupid enough to allow themselves to be nominated. Here's what you got:

Joint Master: Corkscrewed ☑
Turn-Ons: Fine wine, cool tunes, and a tasty bud (never Bud).
Turn-Offs: Running more than 50 yards at a stretch on flour.
