

MVH3

If the hare ain't live,
it ain't Mt. Vernon.

Run: # 860

Date: November 15, 2003

Hares: **Whore Moans, Battery Operated Buddy, Leave it in Beaver, Roxy Moron**

Location: [Mount Vernon \(Grist Mill Park\)](#)

Home Cumming!

The start location was at the OTHER Grist Mill. The pack assembled slowly as it was a warm and sunny day and the other parking lot was nicer. It took a while for some to realize they were in the wrong place! Joint Masters **Burnt Sox** and **French Freedom Toasted** decided to mix things up a bit by substituting Father Abraham with Black Man Abraham. Perhaps it was the proximity to Mount Vernon Plantation that led to this version. More than likely it was an attempt to increase the cash revenue on the hash as the video is rumored to be released soon. All profits will be split equitably among all hash participants, well as much as they were equitably shared on the plantation. There is no confirmation on the cover design; Burnt and French are undecided as to who should stand on the right or left.

Late cummers **Running Bare** and **Bad Dog** took off on the runner's trail while **Eager Beaver** and **For Sale or Rent** correctly choose to run

the walker's trail. The bags were laid under the bag vehicle with care and soon **Flying Burito** arrived to ferry them to the end.

Walker's Trail

Fire & Ice was leading the tail-end of the walkers. **Slip Knot** was already far far ahead. The pack marked all the checks – yes there were checks to be solved and the pack was packing chalk.

Hollow Point was reported racing down the walker's trail trying to catch up to **Hands Solo**.

Vibrator and **Puppy Pimp** flagged down a police car so that the baby jogger contingent, **Standard Deviant**, **Chapaquickedick**, and **Nurse Crotchet** could safely cross the road.

Trail

There were stories of the trail later recounted and many mixed emotions about a notorious back check. Seems the hares thought that a back check could be set back to a regular check. The runner's trail soon merged with the walker's trail almost on top of the former President's home. The hares had carefully brought the pack over the highway and marked "George Washington slept here". Hmmm, it seems many hashers missed this historic landmark. Or maybe they knew the whole story. He slept everywhere!! So what's the big deal? **Whore Moans** was not consoled

The trail would its way through a maze of urban dwellings that seemed to get bigger as the miles went by. It even went past a yard sale where many hashers stopped and chatted with the owner. Not your typical yard sale like those found in the land of the double wide. It was real wood and had fine shape and style. She was very pleasant and thought that hashing sounded like a great idea. Perhaps she was just grateful for the entertainment the pack provided.

Interlude

The pack slowly made its way in – maybe the trail was a tad longer than the hares thought. The hares had prepared three different types of chili, and corn bread. **Whore Moans** and **Battery Operated Body** were quick to point out the corn sticks. Seems **Roxy Moron** didn't know how to make it and it came out flat! There was even a birthday cake for **Whore Moans'** mother. This lady also allowed us on her property. I think it may be the last. There was the house puppy – Corgi/Terrier mix and ribbons won for showing horses. After the dogs got tired of chasing tail the **RA 14Karet Cock** decided it was now safe to conduct the circle.

CIRCLE

Hares Whore Moans, Battery Operated Buddy, Leave it in Beaver, Roxy Moron

Birthdays Mother of Whore Moans and Roxy Moron.

Namings BUSH – a friend of Roxy Moron defended his name. He was named by San Antonio from the story of his trip to Tokyo which occurred at approximately the same time as President bush's visit. The president made the news when he lost his cookies at a metro station – Bush was named by emulating the president. It's a pretty lame name but the pack didn't seem to care.

Violations **Hares** – did not know how to mark a back check. **Dual Airbags** and **14K** for bragging at the back check they knew where they were going and went the wrong way – never to be seen for another hour. **And How's Her Bush** for not paying this week. **14 Karet Cock** and **Big Sweaty Pussy** for impersonating senior hashers. **You've Got Tail** for a racing shirt. **Gay Ship Lollipop** for registering as **Gay Sheep Lollipop** for Virginia Interhash. He thought he could get more action that way!

Hashit **Limp Dart** returned and felt obligated to inform the pack that **Big Sweaty Pussy** told him to keep it even though he would be gone for two months. **Limp Dart** also felt the hash shit he was given was more than limp it was lame so he purchased it a big brother to keep it company! Now that's an addition. Along with the two above the nominees included **Poop Deck**. It seems **Poop Deck** was bragging about how he shortcut two miles off the trail but still came in near the end. Ah – the winner – **Poop Deck** for successfully combining whining and bragging about the same incident.

AFTER THE CIRCLE

Bad Dog was brought in by **And How's Her Bush**. Much to Bad's chagrin all the supplies and all the food was gone. He immediately got on the phone to head to Great Falls where he hoped there was still food left.
