

W *The Trash* Hite Ho's Hash House Harriers

January 4, 2004

"eh, pourabeer on' em"

Hash # 926

There was no joy in Mudville

The hares have collective 10 years of hashing, do you think the wankers can set a trail? "I fucking hope so you fucking fuck. Any half-mind can do it. And get you hand off my ass." replied **Have Dick Will Travel**. On January 4th 2004 the former statement (not the ass part) was proven wrong. The brain trust assemblage of fuckerpants© known as **Telecum, Semen on the Pew, Gimme a Dick, and Free Refills** really botched this one.

It was an unseasonably warm January afternoon with only a threat of rain (thanks **Wax on Wacks Off**) when we embarked on our traditional Sunday jaunt. With scenic American University and

Rock Creek Park in the neighborhood this trail had the potential to be quite genial. The trail was more genial than genial. The hares set a most circuitous trail that was the muddiest route possible. Back checks – Yes. They must have used GPS. **Short Bus Bitch** was kind enough to also remind us that the trail was uphill both ways.

Let us get the facts straight for the hares next week: Good trails are the antithesis of a good mate. Trail should be dry, short, flat, and clean. However both trail and mate should have large quantities of beer in them.

The trail was SHITTY. And we did it all for what, BEER? MMMmmmmm beer... it was worth it. In retrospect, I liked it... the beer that is.

White House Half Dozen Most Unwanted

If you locate these habitual violators - Immediately hit on them incessantly and get contact information. Pass information to your local member of mismanagement. Do not try to apprehend!

1. **No Motion on the Ocean - (blasphemy)** After completing his marital duties of a trip to Home Depot, **NOMO** was propositioned by **Sextra Credit** for a date to the hash. He declined her offer, "The two things I do not want to do today are r*n or drink beer."
2. **Bret Farve looking guy - (r*cing)** Yes I forgot his name, but he was racing.
3. **Big Dick No Brains - (bad pick up line)** Crimes against humanity can be dismissed. Today's violation: Using the pick up line, "Ya hear that jingle? That is a roll of quarters in my pocket. How bout you reach in and get some?"
4. **Sweet Home Vagina - (suspect)** - The cohort in Bret Farve's transgression was wearing black. SHV was also wearing black. Under hash authorization that is conclusive proof. She must be brought to justice.
5. **Bolo Head Rat - (blasphemy/sex on trail)** – "It is a bad New Year. I have been doing too much drinking and not enough r*nnng." Sex on trail is a Violation? *There are kids in Africa without ANY beer!*
6. **Solicit Her Genitals - (Five Counts; Disrespectful to Brew Crew)** A most heinous of violations. As we all recollect the beer check; there was beer, tables, cups, trash bags, and wankers. Then beer went into cups. Some beer went in our bellies some spilled on our shirts. The details are fuzzy after that. I digress, Good times!

This program was brought to you by a generous contribution from crews like you.

On the day in question the trail resumed at 16:43. **SG** of sound half mind and body:

- Was in a haste to r*n trail.
- Neglected to dispose of beer in an eco friendly designated location,
- Forgot to place her cup in a trash bag
- Abandon beer cup on a table for brew crew to place in a solid waste receptacle
- Forced **Tri Ass A Thong** to reprimand in

an 'outside voice.'

39th Flavor Discovered!

Arms are flailing and legs make a previously only seen in cartoons motion, but will she fall. **38 Flavors** fought the effect of gravity with panic and reflexes. While on break from pre hash lounge chair duties she decides to mingle. Regrettably her duty break was the same place a dog had his own doodie break. The slip began in rapid fashion and amongst a heard of spectators. With the option of fall in poo, land on **Trouser Snake**, or try to stay up, 38 stuck the landing stayed on her feet. Kerry Scrug would be proud. She was later seen kicking **Klondike, Mazie, and Mighty Duke.**
