"REV's ass is mine. I am gonna violate it." **Put It Out**
Lock your doors, REV.

Liver Flees Gimme A Dick's Body

After more than 20 years of absorbing vast quantities of beer, **Gimme a Dick's** liver finally fled the famed hasher's body Tuesday. "I can't take it anymore," the liver said. "A liver can only process so many toxins before it says to hell with it." Dick's liver absorbed its final beer Sunday afternoon that **Dick** had with a 1/2 price burger at Rock Bottom. Until it can find a place of its own, **Dick's** liver plans to share an apartment with **And How's Her Bush** and **Leave It In Beaver's** liver.

Are You Ready for Some Football

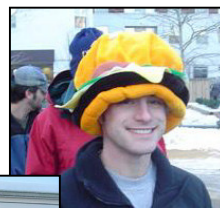

It was cold. It was cloudy. We ran. We were outside. **Great Balls of Fire** declared the trail as the best in the history of hashing. I am sure it is true.

Violations

And How's Her Bush? (Over-stimulation and Racing) Mirror. Mirror, on the wall. Who's the swiftest of them all?

Rear End Loader (Virgin Neglect) Neglected to tell his "guest" we are all liars. She was overheard saying, "They said this trail was flat."

Hares, GBOF, Leave it in beaver, Kiel Bastard, Gimme a D*ck Using women's underwear to set trail and declining free beer from brew crew

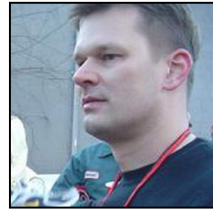

Tri Ass A Thong, Duck Duck Bush and I'd Do Her multiple counts of cell phone use on trail. **Two Lips** for calling the scribe's cell phone twice while she was on trail. He just won't take no for an answer.

Senior Doucheberg (Unauthorized Beer Check) Stopped at his house while on trail to get a beer and he didn't share.

Summer's Eve (Self-Violator) Violated himself for being late to his first official hash as the Religious Advisor. Every time you do that **SE**, God kills a kitten.

Solicitor Genitals (Virgin Hoarder) Unable to wait for the closing circle, **SG** took off with her virgins before we could have our way with them. B*tch.
