Hashing of The Christ

(Live Performance) -by **Fifty Dollar Bitch, TriAssAThong, Had a Madam** and **Duck Job** So often culture focuses an intellectual contest to identify the most intelligent, the most mentally able, the brightest, the cleverest. Fundamentally this is elitist and discriminatory. Have we learned nothing from Dr. Martin Luther King? Woman's Suffrage? Handicapped wheelchair ramps?

In a world of exclusion and elimination we have forgotten about the mentally weak. The dimmest bulb in the lot. The hasher that is one olive short of a martini. **Fifty Dollar Bitch, TriAssAThong, Had a Madam** and **Duck Job** rocked the status quo by setting a trail to find the paste eaters of the hash.

Fair warning was given to all hashers at the start of the circle. Hashers that fall within a couple of standard deviations of normal IQ headed this warning:

- If you want to finish in a timely manner, DO NOT take the Eagle Trail!
- If you said "Ouch" while watching Passion of the Christ, DO NOT take the Eagle Trail!
- If you do not want to go through severe shaggy, DO NOT take the Eagle Trail!
- If you are mildly claustrophobic, DO NOT take the Eagle Trail!
- If you want to keep leaches out of you nether regions, DO NOT take the Eagle Trail!
- If you are not currently taking malaria medication, DO NOT take the Eagle Trail!
- If self-preservation is an instinct you possess, DO NOT take the Eagle Trail!

My brain is immersed in malted hops and bathtub gin

Red Eye Vagina, **Horn Blower**, **Rat's Ass**, and **French Toasted** were able to prove common sense is not common in this group. They failed to head **Fiddy**'s warning. Apparently their thinking cap is a twist off. They took the Pepsi challenge against the shiggiest trail ever.

The blood was flowing from their legs. Their shoes were sent to the biological waste incinerator. By now the gangrene has mostly subsided, but **French Toasted** did have to undergo a VERY sensitive amputation. 1. Raise My Titanic and Sucks Cock for Crack - (Mixing Business with Hashing) RMT – "SCC I was just staring at you crotch an noticed your zipper is opened."

SCC – "Why, yes it is! With low interest rates and impending economic growth, I have transitioned my habit as a crack consumer to a business focused on distribution. My profit margin is derived from bulk acquisition and personal allotment distribution. In an election year it often proves prudent to forecast an economic turnaround and stay ahead of the Wall Street Warriors.

RMT – "So are we gonna do it or what?"

- 2. **Red Eye Vagina (Solicitation)** "Hey **Mitey Duke**! I have a Chips Ahoy cookie hidden somewhere on my body. Would you like a Chips Ahoy cookie? Do not tell **Mitey Tight** about our special Dicks Ahoy game."
- 3. Just Marty (Athletic Supporter) "I can take advantage of the r*n and train to a healthier body. I'll carry my lacrosse stick."
- 4. Bright Lights Big Titties (Taco Bitch) "I will check if the trail goes through Taco Bell drive thru. Oh yeah and can you Mega Grande that order?"
- 5. **38 Flavors (International faux pas)** "I was in the Irish Bar Mackey's and they asked me to leave. They were insulted because I drank so much the owners had nothing for breakfast. I guess wringing out the bar mat into my glass was too much for the Micks to forgive."
- 6. **Fifty Dollar Bitch (Tease)** Although I did not personally see it, I do not believe a guy like **AssFinder** would lie. At the end circle parking lot she did that woman/straight jacket trick Dislocate her shoulder, reaches inside of the sleeve, and pull a bra off. That was ordinary rabbit out of the hat. Then she did a pelvic belly dancer move only once documented by a contortionist in the depths of western Mongolia. This allowed her to pull her pantaloons from the bottom of her trousers. For a solidification of the violation, she put on a trench coat and immediately removed it off to revile she had an different outfit. The optimist has to believe at some point she was butt ass naked in plain public view. However there was no show, there were no witnesses, no documentation. It all sounds a bit X-Filesesque to me.
