WH4 Hash 1016
Monday July 4, 2005
Independence Day Hash
Hares: HornBlower, Wang Chunks,
Can't Find Pussy in a Haystack,
Shamrock Your Cock, Just Kristina,
Monday Sticky Monday
Start: Courthouse Metro
OnOnOn: There was a bar? I think
we just cooked out in Shamrock
Your Cock's backyard.

some new parents that weren't moving so fast. **Vominatrix** and **Schellacking the Bishop** introduced just Chase and **G'boff** showed off his handiwork with **BiteMeElmo**. After that a half-hearted effortt at Father Abe ensued, as it was too hot to move. Some dumb hashers went to go run, a larger group including myself poured themselves a beer and meandered to the beer check. Upon arriving there, the walkers all got first dibs on beer and then the runners arrived. After naming a beer bitch (who's name escapes me), a large contingent of the runners decided to walk to **Shamrock Your Cock's** house where we circled up. The neighbors laughed at our songs only because they were drinking too.

Hash Becomes the Drinking Club with a Walking Problem in the Heat

Wow it was hot out today. How hot was it? Hot enough to cook eggs on the asphalt. Hotter than Carmen Electra in a Maxim Magazine. Hotter than Shitty Shitty Bang Bang's muffler after being dragged on the road for half an hour. Hotter than OJ Simpson's blazer in a high speed chase. Hotter than a 5 year old boy to Michael Jackson. Hotter than **Little Red Ride Me Good** doing topless kegstands on the river at last year's camping trip. Hotter than a ... nevermind my last one had something to do with not having any KY left.

Yeah, so it was sticky out there. **Stick Your Finger In It** thought about changing her name. After some beers poured at the start (trying to stay hydrated you know) we eventually had a very drawn out start as we introduced

A few hashers have opened their own business. When those special stains just won't cum out.

Hasher Injured, Virgins Go Missing

While running through a tunnel on trail **Takes It Up The Ehhh** apparently broke his foot. In a rare act of kindness, the GM actually went back for him from the beer check, but an ambulance had already been called – making this the first and likely the last time the GM will ever show compassion to the hash. He had brought three virgins (nice work!) but they all missed their virgin circle because for some reason they felt their presence at the hospital was needed. After an uneventful trip to the hospital he returned to **Shamrock's** house and there was much rejoicing.

Miscellaneous Violations

Proving that drinking or driving a motorcycle are both dangerous, **JagQueen** had a run in between his shin and a metal guardrail. I'll give you one guess as to who won.

Ways to make the flight to Chang-Mai go by faster.

Despite being her 169th hash at WH4, **PayPerView** had a bird take a shit on her. Apparently that's good luck, but I don't see how that works.

Just Stella was nice enough to tell the entire circle that **TriAssATHong** was changing her top in time for us all to see a nice show. In retribution, **TriAssATHong** later pointed out a bit of cameltoe going on with **Just Stella** as she was in the circle as a visitor.

For being such a fan of the cheap, beers like Miller Lite, PBR and the High Life, **Monday Sticky Monday** was violated today for using Whole Foods Organically Certified Flour to set trail today.
