Lovely and reportedly quite talented with giving good head is the Beer Bitch: **Just Cindy**. By the end of circle there were no complaints noted from either the RA or the GMs!

Violations:

Snatch Shot checks back on the pack...is this r*c'ing???

Sucks It Blue for enlisting the aid of **Short Bus Bitch** as a support device enroute to the beer check. Poor **Blue** is the Hashit just too much for you?? Is that why you're Blue???

Some hashers wear drag, Some Hashers wear nothing, Sometimes Hashers dress in appropriately...**Goofy** - stop looking like a r*nner, you can't even make the walker's trail man!

TWIG – matching top and shorts are a no-no...vote is no top for you!!

Pimp of Sarajevo – reserve the formal wear for the prom, a bunch of weddings, and perhaps the occasional funeral- but not a hash...we got no class babe! While it is try there are no rules at the hash there are some sacred guidelines we all like to adhere to...**Beastie Bush** what possessed you to use drinking vessel to transport dog poop? Quick call the RA, we need an exorcism quickly...in the interim drink more beer!!

No Genitals was embarrassed to witness **Rear End Loader** and **Just Jen** working deals on the cell phone while on trail...they kept talking mentioning they couldn't chat cuz they needed to look for...hash!

Last week's media slut was **Evil Jesus**...Boston Marathon Red Dress layout in a R*nner's magazine. This week **Looney** and **Shimoko** made ESPN during a recent Mariners/Orioles ball game with a poster promoting Hash Clubs. Unfortunately it took the cops only seconds to detain them on suspicion of experience with white substances.

Profile:

Bite Me Elmo, **Desperately Seeking Semen** and **Organ Grinder** were reviewing the personals in the paper before trail and came across a the following: SBM loves horses and getting close while hanging upside down is seeking a fun, edgy, stylish Hash name. Previously known as Dash during his school years, he's now a nerdy **Just Shawn** who fills his days managing Public Affairs for the Marine Corps. Please baptize this hard body with a hash name soon!

Birthday hashers honored included **Big Bird Turd**, **Mellow Foreskin Cheese**, & **Number 2** who enjoyed all the the birthday boy XXX & OOs! Look closely & see **Dangerously Close** goosing **Just Jen** AND #2. You go girl!!

Had A Madam and **Beastie Bush** escorted by hash dog Bacchus joined **WDFK**, **Leave It In Beaver**, **Dangerously Close**, **Rude Boar**, **Tes Smirnof**, **No Butts No Glory**, **Daddy Dick**, **Cyclops**, **Crafty**, **Snot**, **Just Colin** and a slew of other long time no seers in exposing the presence of one of the founders of WH4-**Shooting Blanks**. As the story goes, “Before 833 trails ago ($833/52=16$ yrs), when many of the WH4 regulars were still trying to figure out to balance a bike (vice a beer), a man who wished he could wear a ponytail was sitting on his front stoop studying British military tactics. Intrigued by an alternative fitness philosophy discovered by the British Army early last century that consistently resulted in fun while building camaraderie, he decided to conduct an experiment Stateside to see if he could duplicate the results. He procured flour, scouted out shiggy, and built a trail...but no one came! He promised personalized entertainment...and still no one came! He then spoke of the sacred beverage...beer...then they came as they still cum today.”

Hashers Caught Having Fun!

Gorgeous weather, gorgeous hashers, cold beer, and an easily accessible location brought out 150+ fun seekers to the annual Bill Wagner Birthday Hash. To quote **Just Shawn**, “WH4 has its own style, their fun, edgy, and young [attitude & aptitude if not literally classified as young!]!” To prove JS has a shared perception, the cry of On-On sent the pack swarming on

Oakgrove Park literally obliterating the local soccer game. Unable to resist the large balls on field, **Tri-Ass-A-Thon** and **Well Drilled** broke free of the pack to demo some fancy footwork, popping one off to **Rear End Loader**. Snagging the attentions of **Test Tube Baby** & **Crafty** was **Just Katie** hot and wet on trail exiting the grove. Down, over, across and up blowing through numerous checks the pack hesitated only once-to support a passing cop car and then with gusto it continued to swarm on trail. **Semen Mixer** and **Dangerously Close** were amazed at how many hills there are that go just up in west Arlington county. In the meantime the walkers were cruising past the domain of **Puts It Out** and **Waxes On Wanks Off**. **For Sale or Rent**, **Coin Operated**, and **Pussy With A Porpoise** were disappointed that the welcome wagon sign wasn't out. No beer on the curb, no bubbling hot water for a soak! **Gimme A Dick** and **Just Mia** were similarly disappointed when the stroll past **Mellow's** house yielded a return of only one stale beer. Talk about motivation to finish trail in a hurry or at least get to the beer check. Check! **Duck Job** and **Cum Scout** were suffering some kind of delusion probably caused by the continuous presence of **Vominatrix**, **\$50 Bitch**, **Shel-lacking The Bishop**, and **AssFinder** as FRBs. **DJ** and **CS** braved the shiggy and continuously shortcutted trail enroute to the beer check in attempts to claim FRB status. All this

continued to amuse **Just Mitch** and **Tipper Her Whip Her** who enjoyed looking back to watch the shenanigans. **Ground Chuck** on ascent to the beer check decided that the hares must be plant people and that trail markings supported his opinion that the pre-circle should include a video of the trail to permit hashers to assign a PE factor. **Bite Me Elmo** exclaimed she could see it now, the trail in blue flour has a PE factor 6 – having sex with a blind fold on would be easier. The trail in Pink flour has a PE factor of 9... Still griping about the athleticism of the last 10 minutes into the beer check, **GC** tried to recruit **Hoover** and **Mr Phibb** to his cause. They arrived via the walkers trail and both thought the nice ‘glow’ hashers acquired on the ascent would later on provide a great segway for many other types of activities. Speaking of sexways, **Just Jen** and **Just Jeff** started arguing about the feasibility of doing pudding on trail. **Shake-N-Bake** volunteered to help ??(insert name)?? cum! The most popular beer check activity is the naming of the Beer Bitch. **Mr Softie** and **Number 2** (see page 2) were especially pleased to see **Just Cindy** fit so nicely into the proper beer pouring uniform. **Delaware Queen & Just Paul** attempted to bribe **Road Whore** into leaking intel e.g. photographic evidence on the upcoming hash calendar but were unsuccessful-hopefully because **Raise My Titanic** started talking about some kind of clothing optional hash and all three forgot what they were talking about-not that **DQ** and **Just Paul** had a bottle of white wine and were looking to hook up with the 180* opposite of red wine!! Giant, delicious birthday cookies awaited the pack at the Circle where lost virginity was mourned; visitors were welcomed, and repeat offenders were welcomed into the get a life club a.k.a. WH4 Mug Club. For those that require little to no sleep it was On-On-On to Whitlow’s On Wilson, for \$10 pitchers (not pictures **Poodle F+cked**) and ½ price burgers.
